

Win-Dy

The Win-DY is an automatic blower developed by CDA to ensure effective internal cleaning of containers prior to filling.

The Win-Dy is an automatic snow blower equipped with:

- Touch screen for configuration.
- Automatic air-blown turning system for a smooth, fast and secure cycle.
- Compatible with different bottle formats: glass, plastic (PET) or other rigid materials.
- Stainless steel and aluminium design.
- Can be integrated upstream of any packaging line or used independently.
- The machine complies with CE standards.

Technical specifications of the Win-Dy

2

APPROXIMATE MASS IN KG	500 kg
POWER CONSUMPTION	2 kW
SUPPLY VOLTAGE	220 V Single-phase 50 Hz
CADENCE	1,200 bottles per hour (depending on format)
BLOWING	Up to 8 blow nozzles Filtered air quality 1:4:1 (with minimum air quality 7:4:4 at machine inlet)
CONTROL	Via touch screen
AIR CONSUMPTION	8 bars Dry, non-lubricated air
OPTIMAL OPERATING TEMPERATURE	From 10°C to 30°C
DIRECTION OF TRAVEL	From left to right
CONTAINER SIZE	∅ mini/maxi: 25/120
